Fall 2023

Student Learning Assessment Summary

Introduction

The College's Student Learning Assessment Plan (SLAP) consists of two major components: 1) one for General Education at the undergraduate level and 2) another for each degree program registered with the New York State Department of Education.

General Education consists of a set of courses that address the essential knowledge, skills, and abilities the faculty and administration deem necessary for any undergraduate degree recipient of Five Towns College to demonstrate in order to function effectively as an educated citizen in a democratic society. Among these essential General Education knowledge, skills, and abilities are the ability to think critically (Critical Analysis and Reasoning), to know how to locate and evaluate the quality of information (Information Literacy), to speak well (Oral Communication), to write well (Written Communication), and to have a basic understanding of scientific and quantitative research methods (Scientific Reasoning and Quantitative Reasoning).

The faculty in each academic division at Five Towns College have also established a set of essential knowledge, skills, and abilities for each degree program. For example, the BFA in Film and Television requires students wishing to graduate to demonstrate skills and knowledge in Cinematography, Directing, Film Literacy, Post Production, Producing, and Scriptwriting. In order to be awarded a BFA in Film and Television, a student must not only take the required courses in the Film and Television Division that provide instruction in these important areas, but must also demonstrate their ability to meet the designated Proficiencies in each required area.

The College's SLAP is designed conceptually as a hierarchical structure. At the apex of the Plan is each degree program. Next, each program is categorized by a number of competency areas, termed Proficiencies (also referred to as Learning Goals). Each Proficiency designates an important aspect of learning for a particular degree. For the BFA in Film and Television mentioned above, the Proficiency might cover "Cinematography" or the ability to capture images of professional quality, and with these images reflect the mood, vision, and goals of the director of the Film and Television project by controlling composition, lighting, and exposure. Each of the Proficiencies required in a degree program or for General Education is deemed critical to acquire for any graduating student.

Next in the hierarchical structure is a Learning Standard established for each Proficiency. The Learning Standard indicates the type of specific behaviors or performance expected of a student in a required course in order to demonstrate that a student has been able to minimally meet the level of aptitude required for the Proficiency. Learning Standards are behavioral, objective, and measurable so that they do not leave much latitude for variability in an instructor's judgment of whether a standard has been or has not been met. An example of a Learning Standard for the Proficiency "Oral Communication" is that a student must "Develop a meaningful and effective voice in order to deliver a well-organized, content-rich, and articulated public presentation."

In each required course for a Proficiency, a student must provide a specified document, final examination, presentation, research paper, project, or other type of material. This material is evaluated by the appropriate division faculty and becomes evidence to determine if the student has met the Learning Standard. The required material to document the attainment of a Learning Standard is referred to as the Artifact. Artifacts are store electronically in Canvas, the College's Learning Management System.

Rather than evaluating an Artifact with traditional letter grades (e.g., "A," "B," etc.), faculty employ a Rubric. The Rubric is a scaled evaluation tool that contains categories with numerical rankings (1 through 5), descriptive headings (Unacceptable, Emerging, Proficient, Target, and Exceeds Expectations), and descriptions of the quality of work that govern the evaluation given. To score the Artifact, the faculty choose the numerical scoring category that best describes the Artifact.

The process of designing and implementing the SLAP began in 2005 and is a dynamic process, not a static one. The SLAP undergoes regular reviews and modifications so that student learning at Five Towns College can be constantly improved. The most recent major revision to the SLAP was made during the summer of 2021. These revisions included a thorough review of all programs, including their Mission Statements, Proficiencies, Learning Standards, Artifacts, and Rubrics. The college's previous three-category rubric scoring system of Unacceptable (1), Acceptable (2), and Target (3) was replaced with a new five-category scoring system to allow for greater refinement and precision in assessing student learning. As noted above, the new rubric categories are Unacceptable (1), Emerging (2), Proficient (3), Target (4), and Exceeds Expectations (5). This report provides summary data for Artifacts collected during the Fall 2023 semester, along with trend data since the implementation of the revised SLAP.

Summary

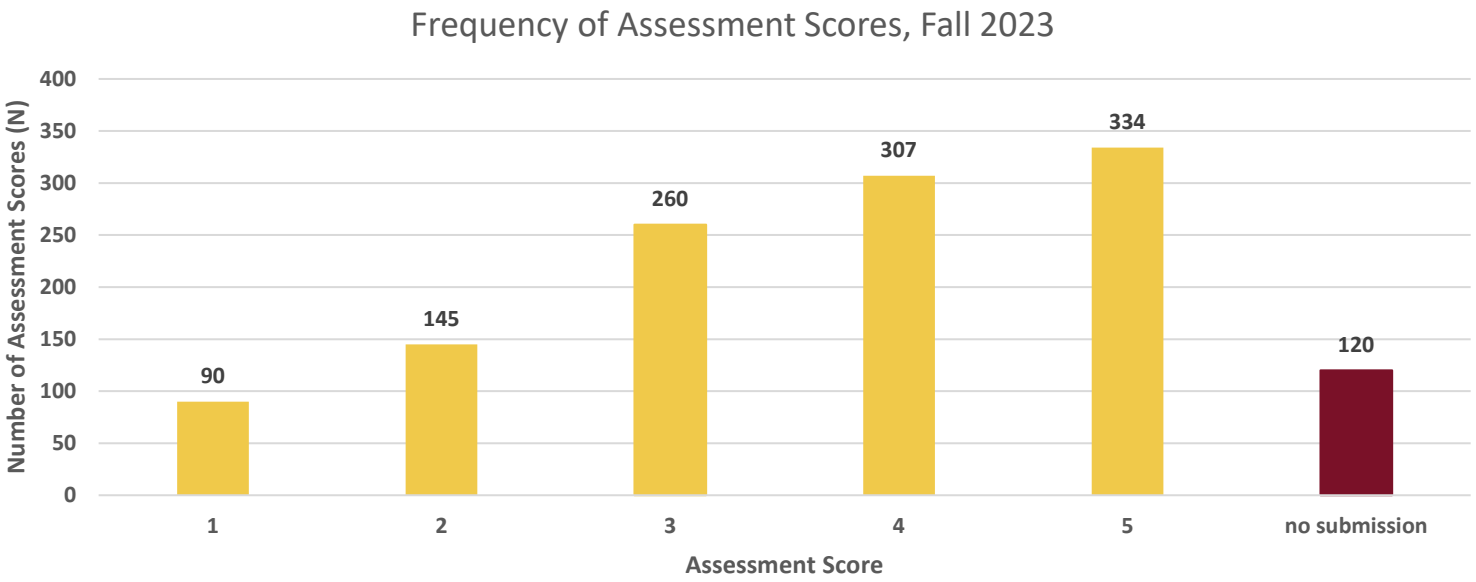

During the Fall 2023 semester there were 1,256 unique enrollments in Artifact-collecting courses. A total of 1,136 Artifacts were collected for an overall Artifact-submission rate of 90.4% for the semester.

Key Facts and Figures

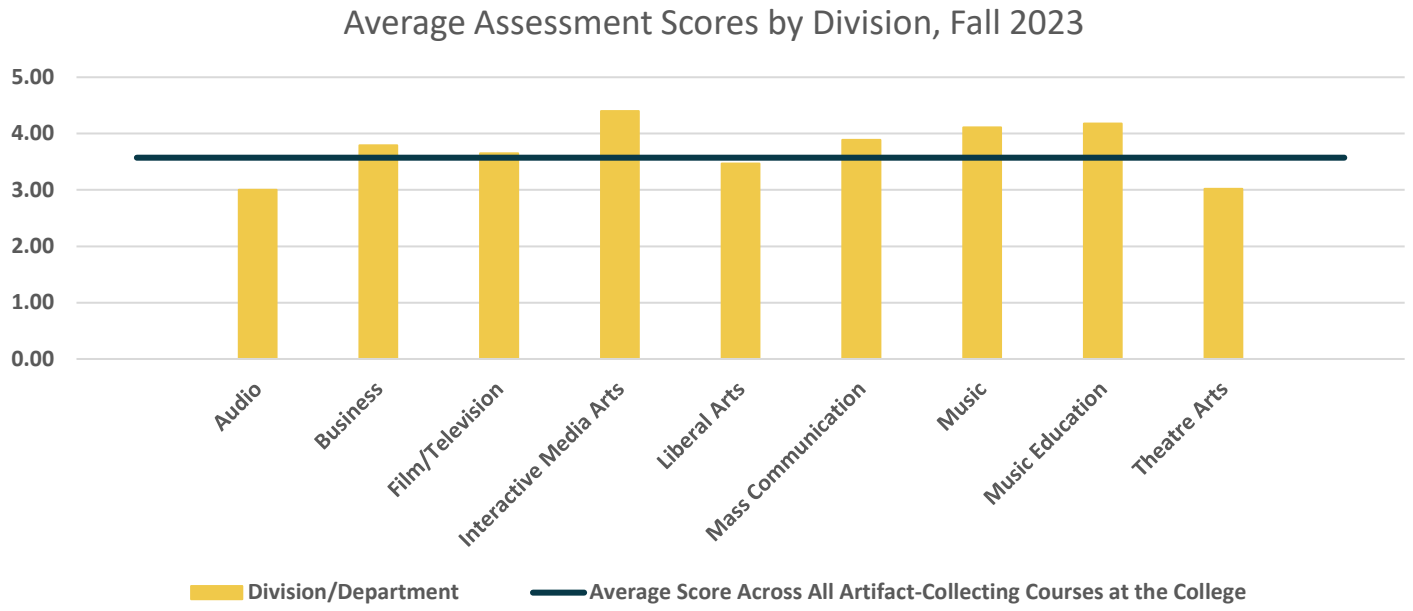

- Of the 1,136 Artifacts submitted in Fall 2023:
    - 90 Artifacts (7.9%) received a score of 1, or Unacceptable
    - 145 Artifacts (12.8%) received a score of 2, or Emerging
    - 260 Artifacts (22.9%) received a score of 3, or Proficient
    - 307 Artifacts (27.0%) received a score of 4, or Target
    - 334 Artifacts (29.4%) received a score of 5, or Exceeds Expectations
- A total of 641 Artifacts (56.4%) received a score of 4 or higher, meaning they met or exceeded the Target score
- A total of 901 Artifacts (79.3%) received a score of 3 or higher, meaning that students were deemed Proficient at the Learning Standard being evaluated with the associated Artifact
- The average score across all collected Artifacts for Fall 2023 was 3.57
- Each academic division at the College had an average score at or above 3.0
- Divisional averages ranged from a of low of 3.00 to a high of 4.40 (range value = 1.40)

FREQUENCY DISTRIBUTION TABLE (assessment scores across all artifact-collecting courses at the college, Fall 2023)	
SCORE	**N**
1	90
2	145
3	260
4	307
5	334
no submission	120
Total	1256
Submissions Scored (Total minus No Submissions)	1136
AVERAGE SCORE*	**3.57**

* Average score reflects only submitted, scored artifacts

AVERAGE ASSESSMENT SCORES BY DIVISION, Fall 2023	
Division	**AVERAGE SCORE**
Audio	3.00
Business	3.79
Film/Television	3.65
Interactive Media Arts	4.40
Liberal Arts	3.47
Mass Communication	3.73
Music	4.11
Music Education	4.18
Theatre Arts	3.02
AVERAGE SCORE ACROSS ALL ARTIFACT-COLLECTING COURSES AT THE COLLEGE	**3.57**

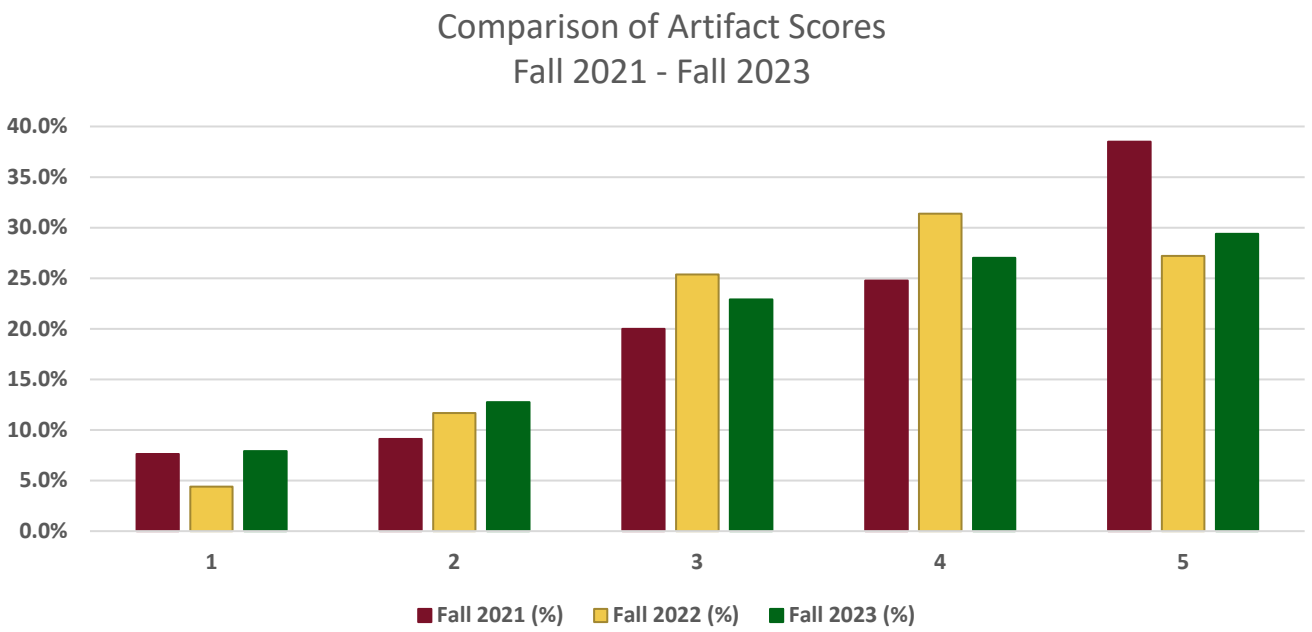

Comparison of Artifact Scores: Fall 2021, Fall 2022, and Fall 2023

Following the first full year of data collection under the current Student Learning Assessment Plan, the distribution of assessment scores indicated that faculty were perhaps not being rigorous enough in their assessment of student artifacts. When reviewing the annual report at the College's Fall 2022 Professional Development Day, faculty were reminded that while the objective is to have all students showing proficiency on their degree program's various Learning Goals (i.e., achieve a score of 3 or higher), the "5" scoring category should be reserved for those Artifacts that truly "exceed expectations." A comparison of the last three fall semesters shows that the distribution of assessment scores has improved since Fall 2021. While the distribution still skews toward the right hand or upper side of the scale, the proportion of scores in the 5 category is now below 30%, while the proportion of scores in the other categories has increased. It should be noted that while proficiency is achieved with a score of 3 or higher, the college's target score for student achieve is a 4, and thus it is reasonable to expect a slight skewing toward the right-hand side of the scale. Comparing the past three fall semesters, the improvement in the distribution of assessment scores has not negatively impacted the overall percentage of students showing proficiency, which has remained fairly consistent at 83.3% in Fall 2021, 83.9% in Fall 2022, and 79.3% in Fall 2023.

Comparison of Artifact Scores, Fall 2021 – Fall 2023

Artifact Score	Fall 2021		Fall 2022		Fall 2023	
	N	(%)	N	(%)	N	(%)
1	78	7.6%	41	4.4%	90	7.9%
2	93	9.1%	109	11.7%	145	12.8%
3	204	20.0%	237	25.4%	260	22.9%
4	253	24.8%	293	31.4%	307	27.0%
5	393	38.5%	254	27.2%	334	29.4%
Total	**1021**		**934**		**1136**	

Comparison of Average Artifact Scores by Division: Fall 2021, Fall 2022, and Fall 2023

Looking at the average assessment scores for each division at the college, all divisions have consistently had an average assessment score of 3.0 or higher in each of the past three fall semesters. Because of the concerted effort to adjust the overall distribution of scores by lessening the number of 5 scores given, as discussed above, the overall average score across the college has decreased slightly each fall semester (3.77 in Fall 2021, 3.65 in Fall 2022, and 3.57 in Fall 2023). However, this decline is very modest (a total drop of 0.2 points over the three-year period), and the most recent Fall 2023 average, along with the three-year fall-semester average, are both right in the desired range between 3 (Proficient) and 4 (Target). Three divisions have a three-year average above 4.0 (Interactive Media Arts, Music, and Music Education, four divisions have a three-year average between 3.5 and 4.0 (Business, Film and Television, Mass Communication, and Theatre Arts), and two divisions have a three-year average between 3.0 and 3.5 (Audio and Liberal Arts).

Division	Average Assessment Score			Three-year average (fall semesters only)
	Fall 2021	Fall 2022	Fall 2023	
Audio	3.66	3.26	3.00	3.31
Business	4.06	4.03	3.79	3.96
Film/Television	3.93	3.66	3.65	3.75
Interactive Media Arts	4.12	4.35	4.40	4.29
Liberal Arts	3.50	3.34	3.47	3.44
Mass Communication	3.79	3.56	3.73	3.69
Music	4.26	4.19	4.11	4.19
Music Education	4.11	3.82	4.18	4.04
Theatre Arts	3.24	4.41	3.02	3.56
AVERAGE SCORE ACROSS THE COLLEGE	**3.77**	**3.65**	**3.57**	**3.66**

Report Format

The summary facts and figures provided above note some of the assessment score trends that are found by looking at the full range of Artifact-collecting courses offered by each division. However, a key component of the SLAP is to assess student learning within each degree program. While there may be important overlaps between course assessment and student learning assessment at the program level, significant differences can occur, and thus it is important to distinguish one from the other.

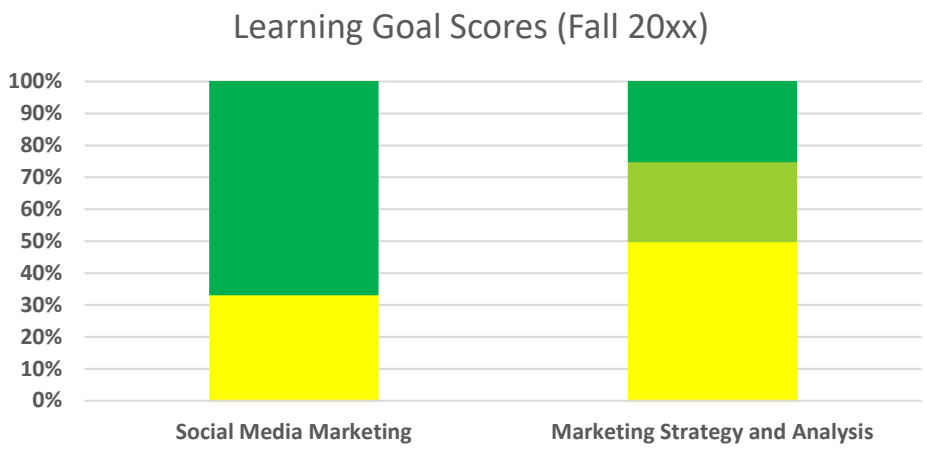

The remainder of this report will focus on student learning assessment at the program level. The report is divided into individual sections for each division at the college, which can be easily navigated by using the bookmarks tab on the side of the screen if viewing the report electronically. Within each section, there are subsections for each individual degree program offered by that division. For instance, for the Business Division, there are separate subsections for the AS in Business Administration degree, the AAS in Business Management degree, and the BBA in Business Management degree. Additionally, degree programs are also broken down by concentration. Thus, for the Business Management AAS and BBA degree programs, each program is broken down by the core courses assessed for all students in those programs, as well as by the four available concentrations of Audio Recording Technology, Business Management, Business Marketing, and Music Entertainment Industry Studies.

For each of these degree-program sections and subsections, the first page will display a table listing the number and percentage of Artifacts that fell into each scoring category, the total number of Artifacts scored, and the average Artifact score for each of the Learning Goals associated with that particular degree program or concentration (see example below).

BBA Business Management, Business Marketing Concentration (Fall 20xx)

	1 unacceptable		2 emerging		3 proficient		4 target		5 exceeds expectations		Artifacts Scored	Average Score
Learning Goal	N	%	N	%	N	%	N	%	N	%	N	
Social Media Marketing	0	0.0%	0	0.0%	2	33.3%	0	0.0%	4	66.7%	6	**4.3**
Marketing Strategy and Analysis	0	0.0%	0	0.0%	4	50.0%	2	25.0%	2	25.0%	8	**3.8**

Below this table is a chart with a visual display of the proportion of Artifacts that fell into each scoring category for each Learning Goal listed (see example below).

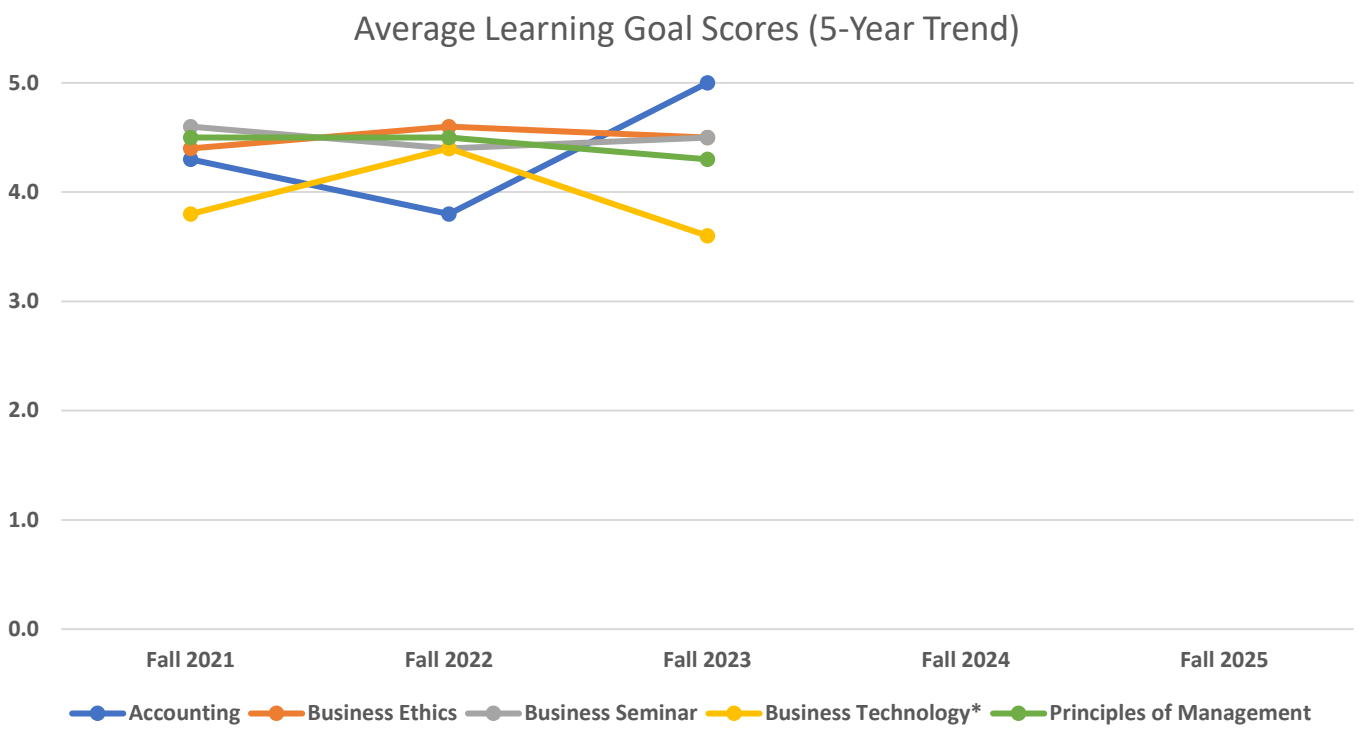

It is important to note that some programmatic Learning Goals are assessed using multiple Artifacts, sometimes from within the same course, but often from multiple courses. Where this is the case, this first table and chart display the combined total and overall average scores for all Artifacts collected for the listed Learning Goal. Separate scoring breakdowns for the individual Artifacts that make up each Learning Goal are provided on subsequent pages within each section of the report.

All tables and charts included in this report use a standardized color-coding system for each scoring category to aid in the interpretation of data: Unacceptable (1) = red, Emerging (2) = orange, Proficient (3) = yellow, Target (4) = light green, and Exceeds Expectations (5) = dark green.

The second page of each section of the report includes another table and chart, this set showing the trend in average Artifact scores for each Learning Goal by academic year (see examples below). Because the SLAP was revised in the Summer of 2021, Fall 2021 is the first semester of data that was collected using the new 5-point Rubric scoring scale. Additionally, many edits and revisions were made to past Learning Goals, Artifacts, and Rubrics, which makes it difficult to establish trends between historical and current assessment data. Thus, the data in this report only includes trends from Fall 2021 through the most recent Fall 2023 semester.

BBA Business Management, Core Courses (5-Year Trend)

	Average Score by Semester				
Learning Goal	**Fall 2021**	**Fall 2022**	**Fall 2023**	**Fall 2024**	**Fall 2025**
Accounting	4.3	3.8	5.0		
Business Ethics	4.4	4.6	4.5		
Business Seminar	4.6	4.4	4.5		
*Business Technology**	3.8	4.4	3.6		
Principles of Management	4.5	4.5	4.3		

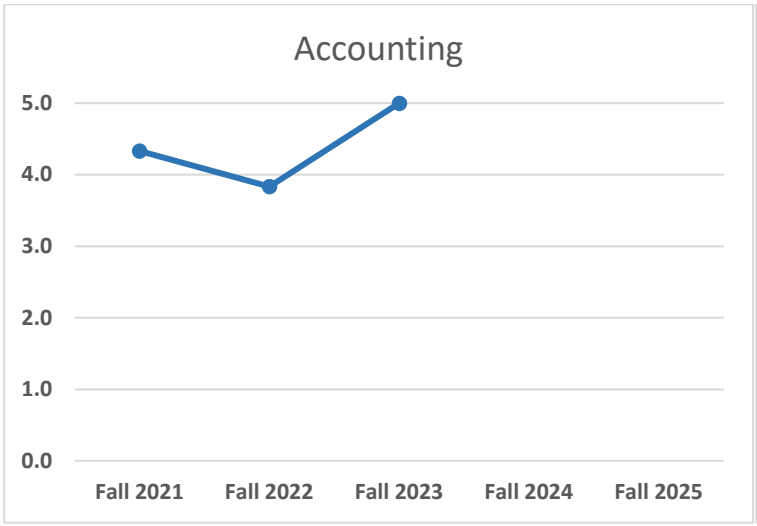

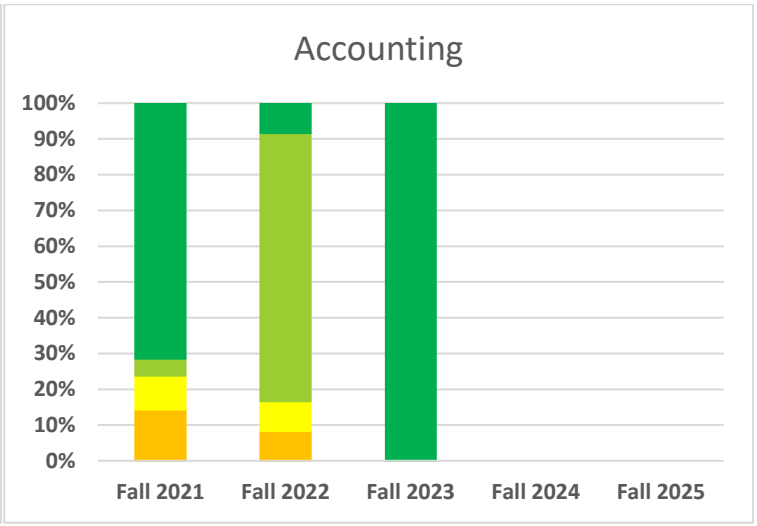

The remaining pages of each section of the report provide a breakdown of the assessment scores for each Learning Goal. Learning Goals that are assessed using a single Artifact will have one page of data for that Artifact, while Learning Goals assessed with multiple Artifacts will have a page of data for each individual Artifact. The table on the top half of each page lists the course where the Artifact is collected, the name of the Artifact, a description of the Learning Standard for that Artifact, along with the breakdown of scores by academic year (see example below).

Learning Goal: Accounting (BBA Business Management Program, Core Courses)

Recorded in: BUS101 – Accounting 1 Artifact: The Accounting Project		1 unacceptable		2 emerging		3 proficient		4 target		5 exceeds expectations		Artifacts Scored	Average Score
		N	%	N	%	N	%	N	%	N	%	N	
Demonstrates the knowledge, skills, and applications required for basic accounting principles and techniques in an accounting cycle.	*Fall 2021*	0	0.0%	3	14.3%	2	9.5%	1	4.8%	15	71.4%	21	**4.3**
	Fall 2022	0	0.0%	1	8.3%	1	8.3%	9	75.0%	1	8.3%	12	**3.8**
	Fall 2023	0	0.0%	0	0.0%	0	0.0%	0	0.0%	9	100.0%	9	**5.0**
	Fall 2024												
	Fall 2025												

Below this table are two separate charts. The chart on the left displays a trendline of the average Artifact score by academic year, while the chart on the right provides a visual display of the proportion of collected Artifacts that fell into each scoring category by academic year.

Areas of Concern

Areas of Concern consist of Learning Goals or Artifacts where the average student score was under 3.0 (which suggests students are not meeting the desired proficiency) or was 5.0 (indicating that all students assessed on a particular item received the top mark of 5 – Exceed Expectations). In addition, where multiple sections of an Artifact-collecting course are offered, any section where the student average was under 3.0 or where all students in the course received a mark of 5 is also listed below. These Areas of Concern should be given special attention by division chairs and their faculty members to ensure that the stated Learning Goals and associated Artifacts have the appropriate level of rigor which will allow students to achieve the stated proficiency, but at the same time will also challenge students enough that a reasonable distribution of assessment scores will be awarded and not everyone will receive the top mark.

When assessing Areas of Concern, each division should look at how the Learning Goal or Artifact has been scored in previous semesters (which can be found in each division's section of the report titled "Artifact Scores by Program and Learning Goal") as well as how individual Artifacts are scored in their associated course (which can be found in each division's section of the report titled "Artifact Scores by Course"). Looking at previous semesters will allow faculty to determine if the Area of Concern is a recurring trend or an anomaly present only in the current semester. Looking at how Artifacts are scored in each course is helpful if there are multiple sections of a given course, as it allows faculty to compare how the same Artifact is being scored by different assessors, which can help identify if there are inconsistencies in how the standardized rubric is being used by different faculty members.

Just because a Learning Goal or Artifact is marked as an Area of Concern below does not necessarily mean that corrective action needs to be taken. In degree programs or in specific courses with low enrollment, a single assessment score can greatly affect the overall overage on a particular Learning Goal or Artifact. Thus, it is not uncommon for there to be major swings in assessment scores from semester to semester. However, to ensure that a current concern does not become a long-term trend, faculty should analyze the current semester's data in conjunction with historical data (both of which are provided in this report) in order to make an informed decision as to whether any changes need to be made to a portion of their division's Student Learning Assessment Plan.

Areas of Concern for the Fall 2023 semester are listed on below.

Audio Division

Program: AAS Business Management, Audio Recording Technology
Learning Goal: Audio Recording Techniques
Course: AUD201 – Recording Studio Operations
Artifact: Final Exam Practicum
Average Score: 1.0

Program: AAS Business Management, Audio Recording Technology
Learning Goal: Sound Theory
Course: AUD101 – Audio Recording Theory
Artifact: Quiz
Average Score: 2.8

Program: BBA Business Management, Audio Recording Technology
Learning Goal: Audio Recording Techniques
Course: AUD201 – Recording Studio Operations
Artifact: Final Exam Practicum
Average Score: 2.0

Program: BBA Business Management, Audio Recording Technology
Learning Goal: Digital Recording
Course: AUD303 – MIDI Applications
Artifact: Quiz
Average Score: 2.8

Program: BS Mass Communication, Audio Recording Technology
Learning Goal: Audio Recording Techniques
Course: AUD201 – Recording Studio Operations
Artifact: Final Exam Practicum
Average Score: 2.3

Program: BS Mass Communication, Audio Recording Technology
Learning Goal: Non-Linear Production
Course: AUD304 – Nonlinear Recording
Artifact: Quiz
Average Score: 2.3

Program: BS Mass Communication, Audio Recording Technology
Learning Goal: Sound Theory
Course: AUD101 – Audio Recording Theory
Artifact: Quiz
Average Score: 2.8

Program: MusB Performance, Audio Recording Technology
Learning Goal: Audio Recording Techniques
Course: AUD201 – Recording Studio Operations
Artifact: Final Exam Practicum
Average Score: 2.0

Program: MusB Performance, Audio Recording Technology
Learning Goal: Signal Flow
Course: AUD202 – Advanced Audio Production
Artifact: The Practical in the Final Examination
Average Score: 2.0

Program: MusB Performance, Audio Recording Technology
Learning Goal: Synchronization
Course: AUD401 – Audio/Video Post-Production
Artifact: Quiz
Average Score: 2.0

Audio Course Sections with an Average Score <3.0 or =5.0: AUD101-3, AUD201-1, AUD201-2

Business Division

Program: AAS Business Management, Core Course
Learning Goal: Accounting
Course: BUS101 – Accounting 1
Artifact: The Accounting Project
Average Score: 5.0

Program: AAS Business Management, Core Course
Learning Goal: Principles of Management
Course: BUS211 – Principles of Management
Artifact: The Final Management Project
Average Score: 5.0

Program: AAS Business Management, Audio Recording Technology
Learning Goal: Audio Recording Techniques
Course: AUD201 – Recording Studio Operations
Artifact: Final Exam Practicum
Average Score: 1.0

Program: AAS Business Management, Audio Recording Technology
Learning Goal: Sound Theory
Course: AUD101 – Audio Recording Theory
Artifact: Quiz
Average Score: 2.8

Program: BBA Business Management, Core Course
Learning Goal: Accounting
Course: BUS101 – Accounting 1
Artifact: The Accounting Project
Average Score: 5.0

Program: BBA Business Management, Audio Recording Technology
Learning Goal: Audio Recording Techniques
Course: AUD201 – Recording Studio Operations
Artifact: Final Exam Practicum
Average Score: 2.0

Program: BBA Business Management, Audio Recording Technology
Learning Goal: Digital Recording
Course: AUD303 – MIDI Applications
Artifact: Quiz
Average Score: 2.8

Business Course Sections with an Average Score <3.0 or =5.0: BUS101-1, BUS241-1, COM101-1 (artifact 1)

Film and Television Division

(no areas of concern during the Fall 2023 semester)

Film and Television Course Sections with an Average Score <3.0 or =5.0: none

Interactive Media Arts Division

Program: AAS Interactive Media Arts
Learning Goal: Design Thinking
Course: IMA240 – Design Thinking 1
Artifact: mobile app
Average Score: 2.0

Interactive Media Arts Course Sections with an Average Score <3.0 or =5.0: IMA240-1

General Education / Liberal Arts Division

Program: General Education Requirement / AA Liberal Arts, Liberal Arts Concentration
Learning Goal: Written Communication
Course: ENG101 – English Composition 1
Artifact: Essay
Average Score: 2.0

General Education/Liberal Arts Course Sections with an Average Score <3.0 or =5.0: ENG101-4, ENG101-5, ENG101-7, ENG101-8, ENG102-2 (learning goal 2), ENG302-1, PSY301-OL (learning goal 1), PSY301-OL (learning goal 2), SPE101-4

Mass Communication Division

Program: BS Mass Communication, Audio Recording Technology
Learning Goal: Audio Recording Techniques
Course: AUD201 – Recording Studio Operations
Artifact: Final Exam Practicum
Average Score: 2.3

Program: BS Mass Communication, Audio Recording Technology
Learning Goal: Non-Linear Production
Course: AUD304 – Nonlinear Recording
Artifact: Quiz
Average Score: 2.3

Program: BS Mass Communication, Audio Recording Technology
Learning Goal: Sound Theory
Course: AUD101 – Audio Recording Theory
Artifact: Quiz
Average Score: 2.8

Program: BS Mass Communication, Broadcasting
Learning Goal: Media Law
Course: MAC202 – History and Application of Media Law
Artifact: Part of the Final
Average Score: 5.0

Mass Communication Course Sections with an Average Score <3.0 or =5.0: ENG302-1

Music Division

Program: MusB Performance, Core Course
Learning Goal: Mastery of the Music Core Curriculum
Course: MUS212 – Harmony 4
Artifact: Week 10 Assessment
Average Score: 5.0

Program: MusB Performance, Audio Recording Technology
Learning Goal: Audio Recording Techniques
Course: AUD201 – Recording Studio Operations
Artifact: Final Exam Practicum
Average Score: 2.0

Program: MusB Performance, Audio Recording Technology
Learning Goal: Signal Flow
Course: AUD202 – Advanced Audio Production
Artifact: The Practical in the Final Examination
Average Score: 2.0

Program: MusB Performance, Audio Recording Technology
Learning Goal: Synchronization
Course: AUD401 – Audio/Video Post-Production
Artifact: Quiz
Average Score: 2.0

Program: MusB Performance, Music Entertainment Industry Studies
Learning Goal: Music Marketing
Course: MUB401 – Music Marketing
Artifact: The Research Paper
Average Score: 2.5

Program: DMA Music Performance
Learning Goal: Performance
Course: Three Recitals
Artifact: Three Recitals
Average Score: 5.0

Music Course Sections with an Average Score <3.0 or =5.0: MUH703-IS, MUS212-1

Music Education Division

Program: MusB Music Education
Learning Goal: Knowledge of Students and Student Learning
Course: PSY301 – Educational Psychology
Artifact: Midsemester Exam
Average Score: 5.0

Program: MusB Music Education
Learning Goal: Knowledge of Students and Student Learning
Course: PSY301 – Educational Psychology
Artifact: Child Development Quiz
Average Score: 5.0

Program: MM Music Education
Learning Goal: Knowledge of Content and Instructional Planning
Course: EDU542 – Music in the Elementary School
Artifact: Final Project
Average Score: 5.0

Program: MM Music Education
Learning Goal: Instructional Practice
Course: EDU610 – Music Education Technology
Artifact: Mid-Term Presentation
Average Score: 5.0

Program: MM Music Education
Learning Goal: Professional Responsibilities and Collaboration
Course: EDU542 – Music in the Elementary School
Artifact: Interdisciplinary Assignment
Average Score: 5.0

Music Education Course Sections with an Average Score <3.0 or =5.0:	EDU542-1 (artifact 1), PSY301-OL (artifact 1), PSY301-OL (artifact 2)

Theatre Arts Division

Program: BFA Theatre Arts - Acting
Learning Goal: Acting Truthfully
Course: THR221 – Acting 3
Artifact: Performance Feedback
Average Score: 2.3

Program: BFA Theatre Arts - Acting
Learning Goal: Voice
Course: THR160 – Voice and Diction
Artifact: Performance Feedback
Average Score: 2.0

Program: BFA Theatre Arts – Musical Theatre
Learning Goal: Acting Truthfully
Course: THR221 – Acting 3
Artifact: Performance Feedback
Average Score: 2.8

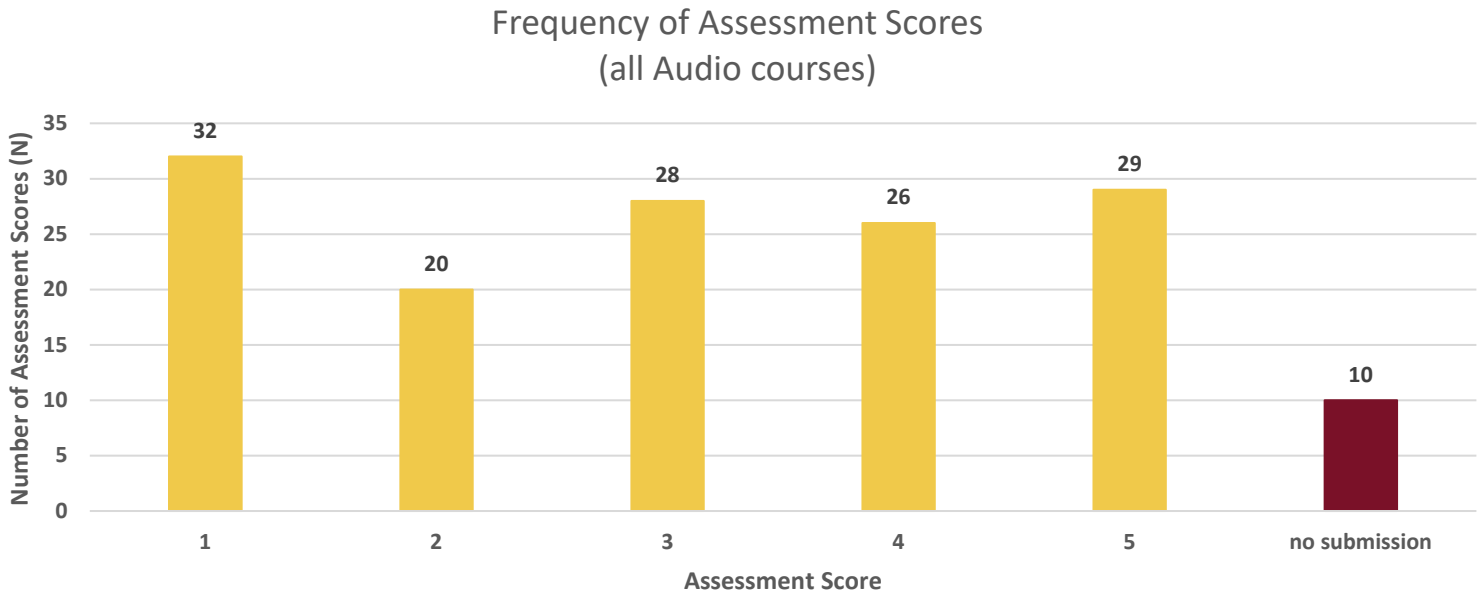

Theatre Arts Course Sections with an Average Score <3.0 or =5.0: THR160-1, THR221-1 (A.T. learning goal), THR280-1
